About Foundation

Our conviction and
conditions for its
fulfillment

Our conviction

"War" and "Peace" are socially constructed phenomena, and as such, they can and must be controlled by the society.

Conditions

However, for Peace to be achievable and sustainable, it needs to be built from within rather than being imposed from the outside.

The mission

How must we look to our financial donors?

We aim at helping the redistribution of wealth for sustainability and justice

How must we look to our recipients?

Our recipients - young people from developing nations who want to pursue a peace building career - must be treated regardless their gender, religion, race, or nationality -> "Quota rule"

At which business must we excel?

Facilitating access of people from Global South to education and work experience by paying for their tuition and / or essential living expenses while they are staying in Switzerland.

How must our people learn, communicate and work together?

What we want

What are the problems we are trying to solve?

PROBLEM 01

The majority of the internships in International Geneva are not paid.

PROBLEM 02

The majority of programmes do not offer need-based scholarships, especially in bachelors.

Solutions

SOLUTION 1

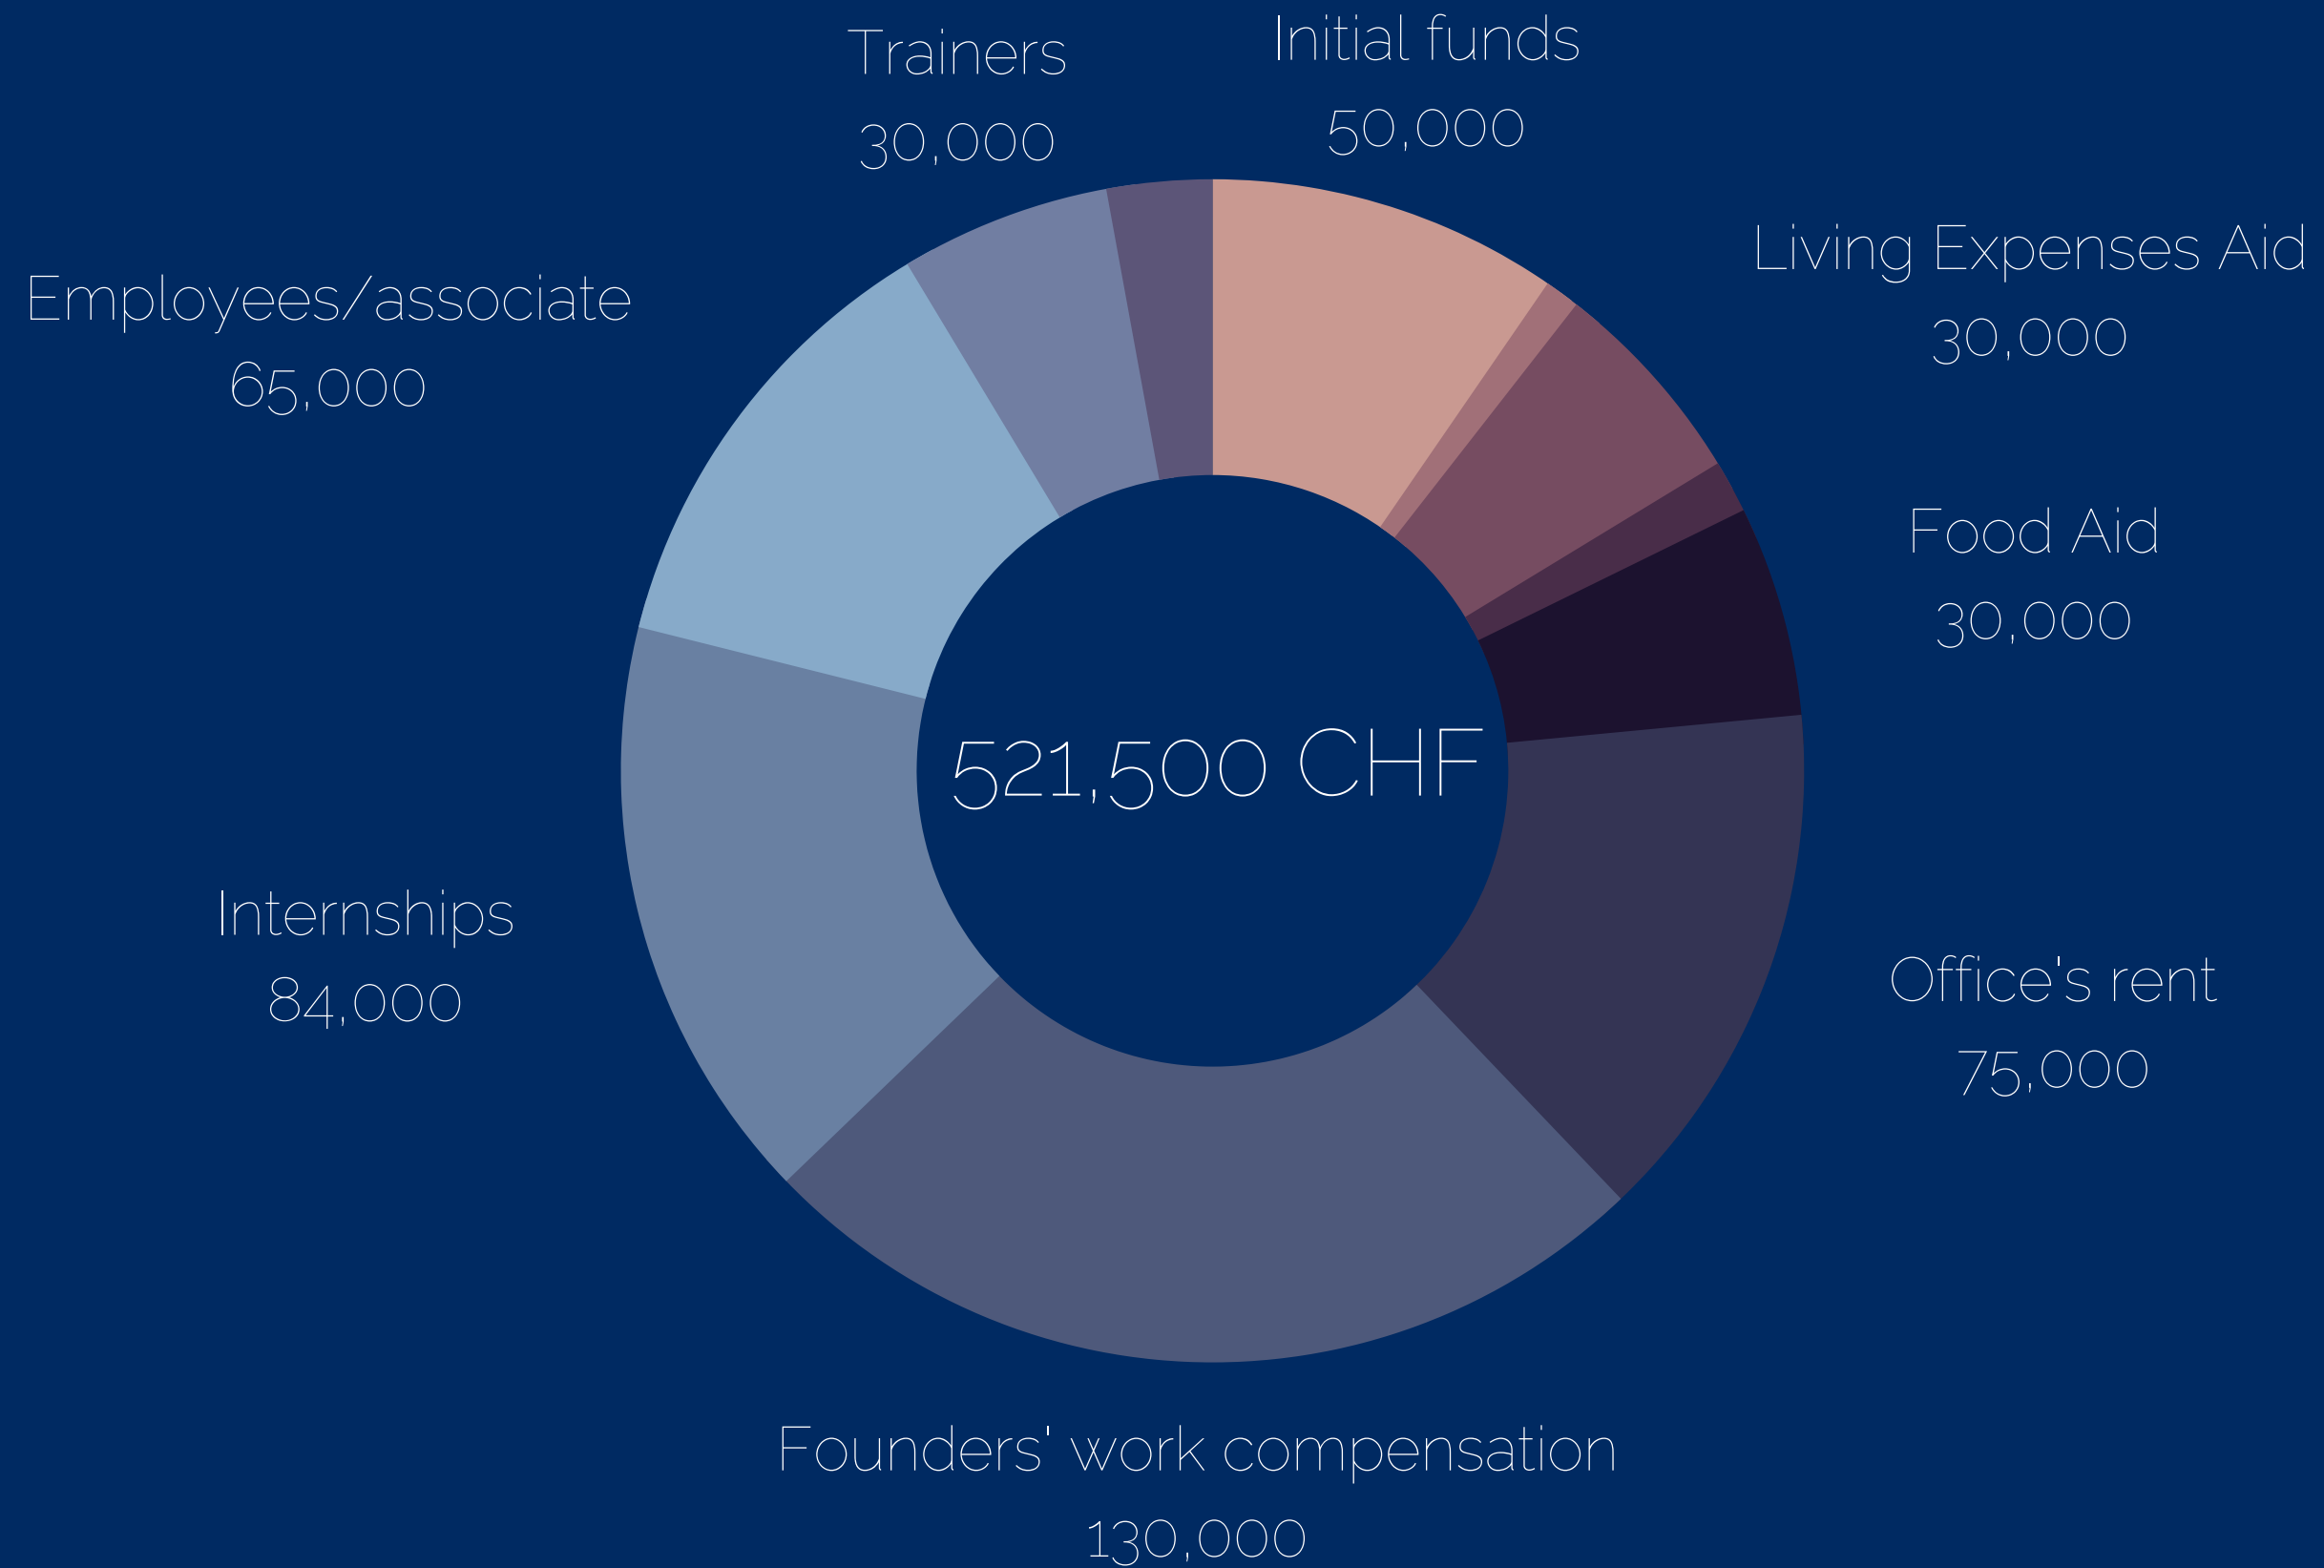

- We offer **Stipends** for students doing **unpaid internships at international organizations.**
 - We also offer **Internships** at our office.
-

SOLUTION 2

- We offer undergraduate scholarships in programmes that are involved, in one way or another, on peacebuilding: Political Science, International Relations, Development, Law, Migration studies, Peace Mediation, etc.
 - Financing every semester of their programme,
 - Covering their living expenses (Insurance, food and accommodation).
 - **Interest Free Loans** in the same programmes whenever the scholarships cannot be given.
