

Youth@STEM4SF

"There is no sustainable future without new generation of scientists"

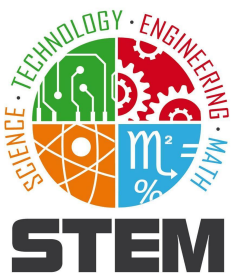

**Sustainable
Future**

- ✓ inspire high-school talents, especially girls for STEM careers
- ✓ inspire future society leaders on value of science

- ✓ connect science with real life, society & sustainability through industry
- ✓ show career opportunities also beyond academia
- ✓ provide female role models from science and high-tech industry

Youth@STEM4SF

Impact-driven innovative pilot project

**Sustainable
Future**

Inspirational lecture from scientist

- science
- society
- economy
- SDGs
- jobs

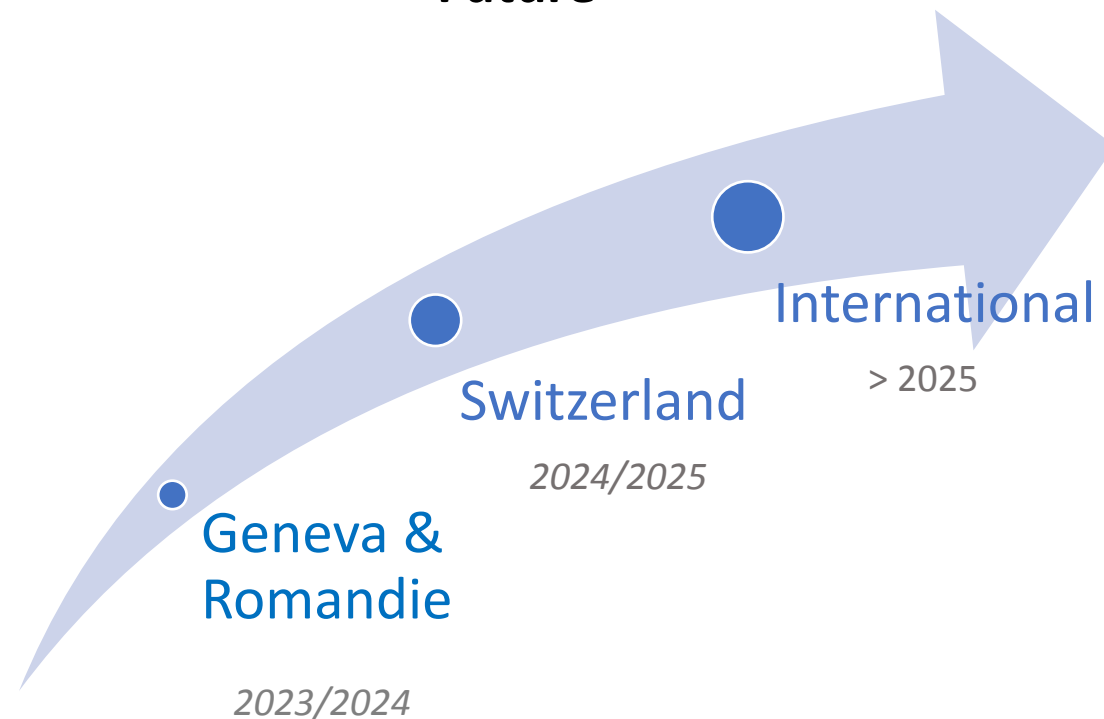

Excursion to high-tech companies

- science at work in industry
- role models
- careers

Student project with prizes

- internship in high-tech company
- talk at UN forum
- visit CERN

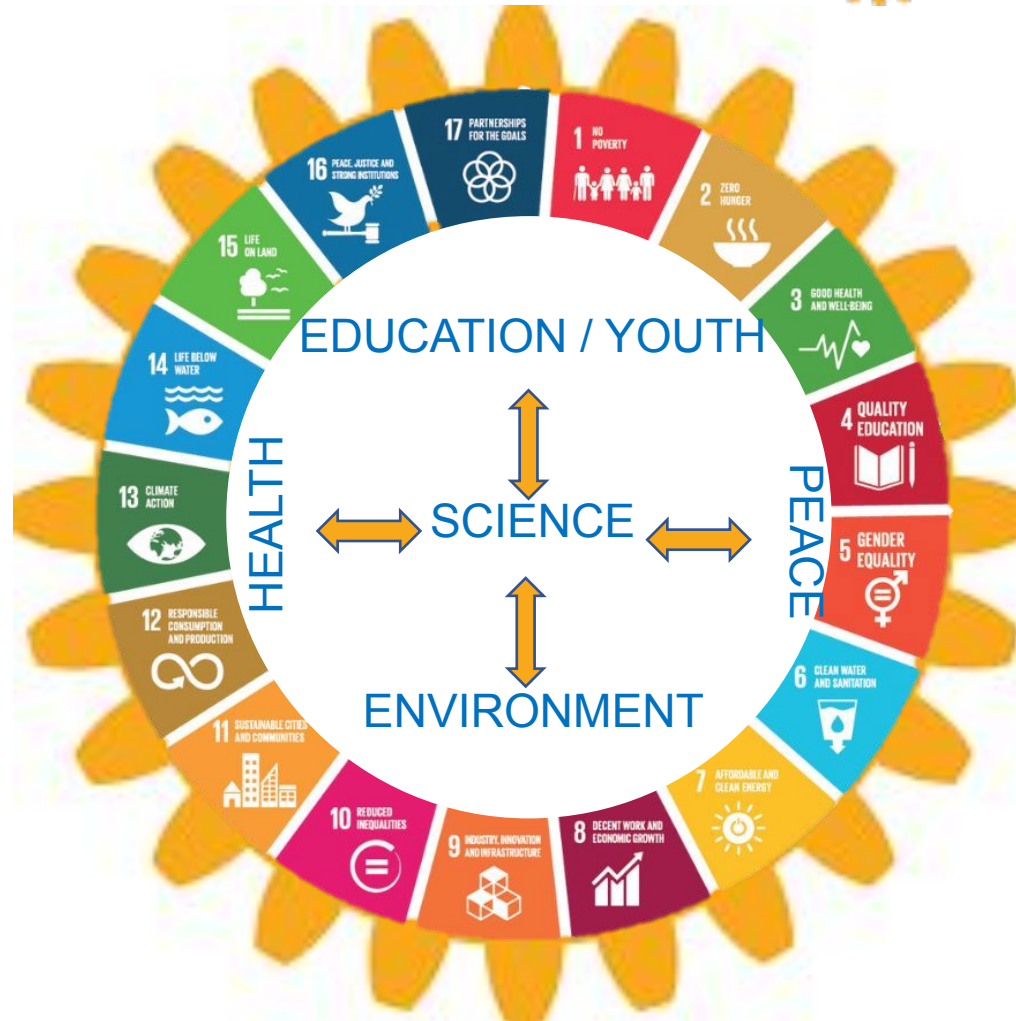

Measure impact: *attitude, interest*

First Swiss pilot

Role of Rotary ?

Education is the most powerful weapon which you can use to change the world.

Nelson Mandela

Rotary & Youth@STEM4SF

Common project of 5 Geneva Rotary & Rotaract clubs 2023/2024

Boost the kick-start of the pilot in Geneva and Suisse Romande

Help with:

- Visual identity, marketing, communication
- Contacts with schools
- Contacts with inspirational industries
- Contacts with people, organisations and companies, who might support project morally and financially
